

The diagram shows two identical rectangular blocks positioned side-by-side. Each block is composed of two stacked horizontal sections: a top section colored orange and a bottom section colored light peach. The top section of the left block contains the text '35 x 12 mm'. The two blocks are connected at their vertical interfaces by four circular nodes, two on each block. The top nodes are connected by a horizontal line, and the bottom nodes are also connected by a horizontal line. The top nodes are positioned slightly higher than the bottom nodes.
